

## NUTRITION

Fresh Bucks Match doubles the purchasing power of low-income residents who use their federal nutrition assistance benefits (WIC, SNAP, and SFMNP) to purchase fresh fruits and vegetables.

Combating hunger and poverty improves short and long term maternal and child health outcomes as well as academic achievement for kids.

## COMMUNITY

Local business strengthens our local economy. From farmers and artisans to musicians to kids selling flowers, we encourage and mentor anyone willing to learn and grow.

Providing free booth space to Toledo Schools' sports and clubs and to the TES Kids Garden to sell the produce they grow, we are committed to helping support community organizations in the greater Toledo area to reach their fundraising goals.

## EDUCATION

The Power of Produce kids' club seeks to teach children about fruits and vegetables, local food systems, and healthy food preparation through active participation.

Free, fun activities ranging from cooking demonstrations to farmers' market scavenger hunts provide nutrition, food, agriculture, and exercise education to the children and families that participate each week.
